

## ClearSounds® CLA7V2 Amplified Power Neckloop Accessory

The ClearSounds® CLA7V2 Amplified Neckloop is a device you wear around your neck and plug into a cell phone, cordless phone, MP3 player, laptop, gaming device or any audio device.

This neckloop gives you adjustable amplification up to 30 dB and reduces or eliminates interference between cellular phones and hearing aid processors. It also features a built in microphone for hands-free conversation.

You need not purchase or switch between multiple headsets for different activities. Four connection cables are included to accommodate the most common types of phones and audio equipment. The amplified neckloop is powered by 2 AAA batteries to provide approximately 200 hours of operation.
