

## Music-Link Dual Silhouette Headset

Suitable for use with all types of hearing aids or cochlear implants with a t-coil, the Music-Link can be used with your Personal Computer, iPod, MP3 or CD Player or any audio device with a standard (3-conductor, 2-ring) 3.5mm headphone socket.

Music Link can also be used with Smart/Music cell phones, such as iPhone, allowing the user to speak into the cell phone's microphone and read from the screen.

Batteries are not required for operation.
