

POCKETALKER ULTRA

Pocketalker Ultra Personal Amplifier

The Pocketalker Ultra amplifies sounds closest to the listener while reducing background noise. The Pocketalker Ultra features a lightweight, ergonomic design for portability and ease of use. Finger tip adjustable volume control allows you to quickly adjust to your listening environment - whether your hearing loss is low frequency or high frequency sounds. The listening accessories jack accommodates for a variety of earphone and headphone options. Use the Pocketalker Ultra with an optional neckloop (NKL 001) to amplify a telecoil-equipped hearing aid.

Each Pocketalker Ultra includes a plug-in sensitive microphone. 100 hours of battery life ensures long-lasting performance.

When used with the optional TV listening extension cord, listeners can hear the television or radio at the volume of their comfort level - without the worry of disturbing others.
