CapTel 840i
for use with VOIP, FiOS, or cable modem

The CapTel 840i captioned telephone shows captions of everything your caller says on a display screen to help you catch every word. It connects to both your telephone service and to your Internet service to give you voice and captions.

The captions are provided by a free service that uses the Internet connection to automatically display captions for every call.

Requires: High-speed Internet access (via WiFi or Ethernet cable), telephone service, and standard electrical power. Router may be required, depending on your set-up.

Features

• Callers dial your number directly

• Captions appear automatically on all calls – incoming and outgoing. No need for callers to dial through the Captioning Service.
• Captions can be turned on or off at any time in a call.

• Large, easy-to-read captions window with adjustable font sizes and colors.

• Display screen tilts for comfortable reading or lies flat to mount the phone on a wall.

• Adjustable volume control (up to 40dB gain) for captioned calls. Volume button is easy to see and adjust during a call.

• One-touch access to CapTel Customer Service (speed dial button automatically connects you to CapTel help line).

• Easy-to-follow menu system with Yes/No questions.

• Built-in Answering Machine

• Phone Book allows you to easily store and dial more than 95 names/phone numbers.

• Speed dial keys for one-touch dialing of frequently called numbers.

• Caller-ID capable – shows you who is calling directly on CapTel display screen.

• WiFi compatible
